

RULES CONCERNING DEBRIS PICKUP

- 1) **Debris pickup during and after construction or remodeling:**
 - a. All of the debris must be placed at the roadside within reach of a knuckle boom loader on the Public Street.
 - b. Debris must be separated into these three categories:
 1. Wood and wood products
 2. Metals
 3. All other items including sheet rock, bricks, blocks, soft drink bottles, paper, insulation, old tires, etc. **ALL SHINGLES MUST BE PLACED IN BOXES, NO FREE SHINGLES!**
 - c. If any non-wood or non-metal items are placed in the wrong piles, the City truck will not pick up debris from any of the other debris piles until the contents are separated as required. If this occurs it will be the next week's pickup before the City truck will return to pick up the debris after it has been separated.
 - d. Building and construction debris will be picked up one (1) day a week in accordance with Municipal Code 17-107.
- 2) **Trees and tree trimming pickup:**
 - a. All trees or tree trimmings must be placed at the roadside within reach of a knuckle boom loader at the Public Street.
 - b. No tree limbs or trimmings can be more than twelve (12) feet in length.
 - c. The Street Department will not pickup tree stumps.
 - d. Trees or trimmings will be picked up one (1) day each week in accordance with Municipal Code 17-107.
 - e. Any trees cut or trimmed by a contractor or individual other than the property owner or members of their family will require the purchase of a Debris Pickup Permit. It is the contractors' responsibility to remove the debris from the job site. If the City is requested to remove the debris, either the contractor or the property owner will be required to purchase a Debris Pickup Permit. The amount of the permit will be determined by the Superintendent of Public Works based upon the amount of debris to be removed. The Permit must be obtained before any of this debris is removed by the City.
